

Operator Connect

Pure IP brings Operator Connect to Microsoft Teams users in 50 countries. As an original Microsoft partner, we simplify provisioning, speed deployment, and back it with 24/7 expertise.

What sets us apart

As an original Microsoft Operator Connect launch partner, Pure IP delivers trusted voice services and deployment expertise for Microsoft Teams with Operator Connect:

- **Fully compliant global coverage** – PSTN replacement services in 50 countries.
- **Secure connectivity** – Direct peering with Microsoft Azure ensures a secure, trusted connection.
- **Fast deployment** – Services activated quickly so projects move without delay.
- **24/7 expert support** – Technical-led, follow the sun support.
- **Hybrid capability** – Use Direct Routing alongside Operator Connect for complex or specialized needs.

Our Microsoft credentials

Chosen, certified, and recognized by Microsoft to support the world's largest enterprises.

Operator Connect launch partner

One of the original providers chosen to help shape and deliver Operator Connect from the start.

Top 3 global provider

Recognized by Microsoft among the top three providers worldwide for Operator Connect activations.

Certified Teams Calling specialists

Advanced Specialization awarded for proven expertise in complex Teams voice deployments.

Global coverage

We provide compliant PSTN replacement services across 50 countries, giving enterprises a single, reliable partner for global voice.

Who it's for

Operator Connect is the easiest way for enterprises to add voice calling to Microsoft Teams. It delivers:

- **PSTN calling inside Teams** without external infrastructure.
- **Fast deployment** with services up and running quickly.
- **Global coverage** with enterprise-grade uptime.
- **Azure peering** for secure, resilient performance.
- **Teams Admin Center management** for streamlined provisioning and number assignment.

Geographic Coverage

Full PSTN replacement services offered in **50 countries** directly from the Pure IP cloud-based global voice network.
